

i3 Pro - i3 Touch

Small Giants

COMPAK

Our **i3 Touch** and **i3 Pro** grinders stand out for their compact size and exceptional capabilities. Despite taking up minimal space in the coffee shop, they will handle it all for you. Thinking big, we have designed these small grinders to excel at any task, delivering peak performance

Grinding

Continuous micrometric adjustment

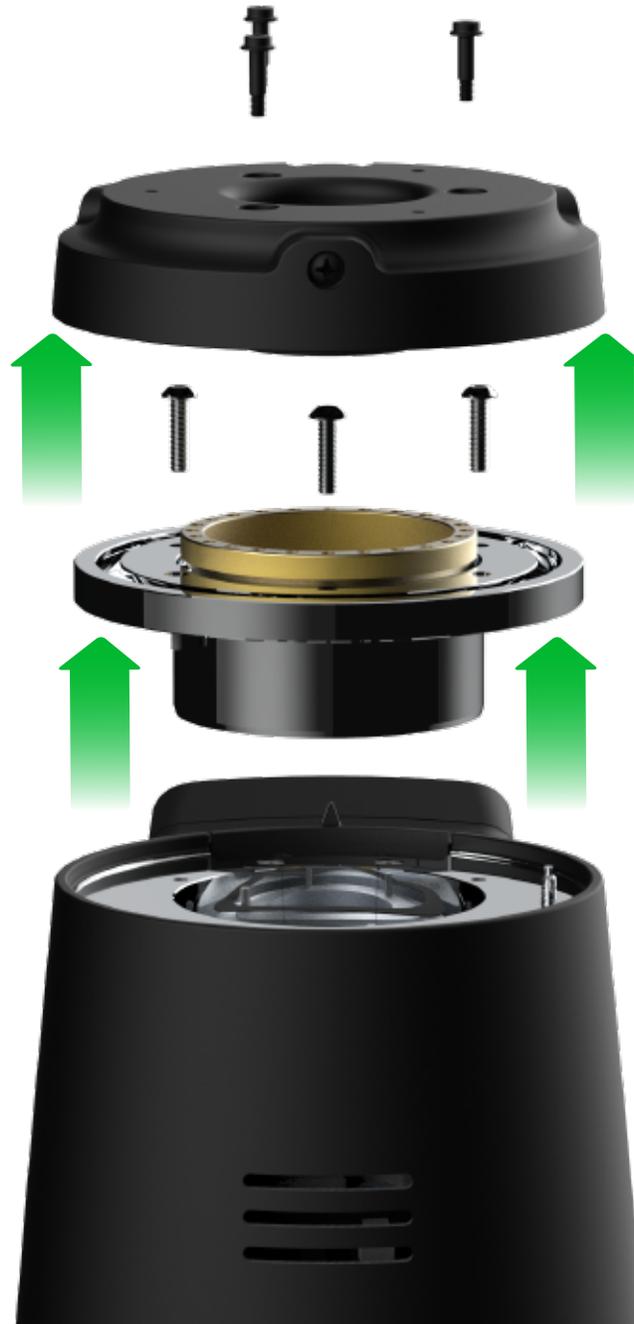

Direct access to the grinding chamber
makes maintenance and cleaning easy

The **new burrs**, made from **highly durable tempered steel 100Cr6**, enhance longevity and, thanks to their design and geometry, enable **quieter grinding**

Direct access to the grinding chamber

The **burrs** can be cleaned or replaced
without the need for unscrewing,
in a **quick, easy, and trouble-free** manner

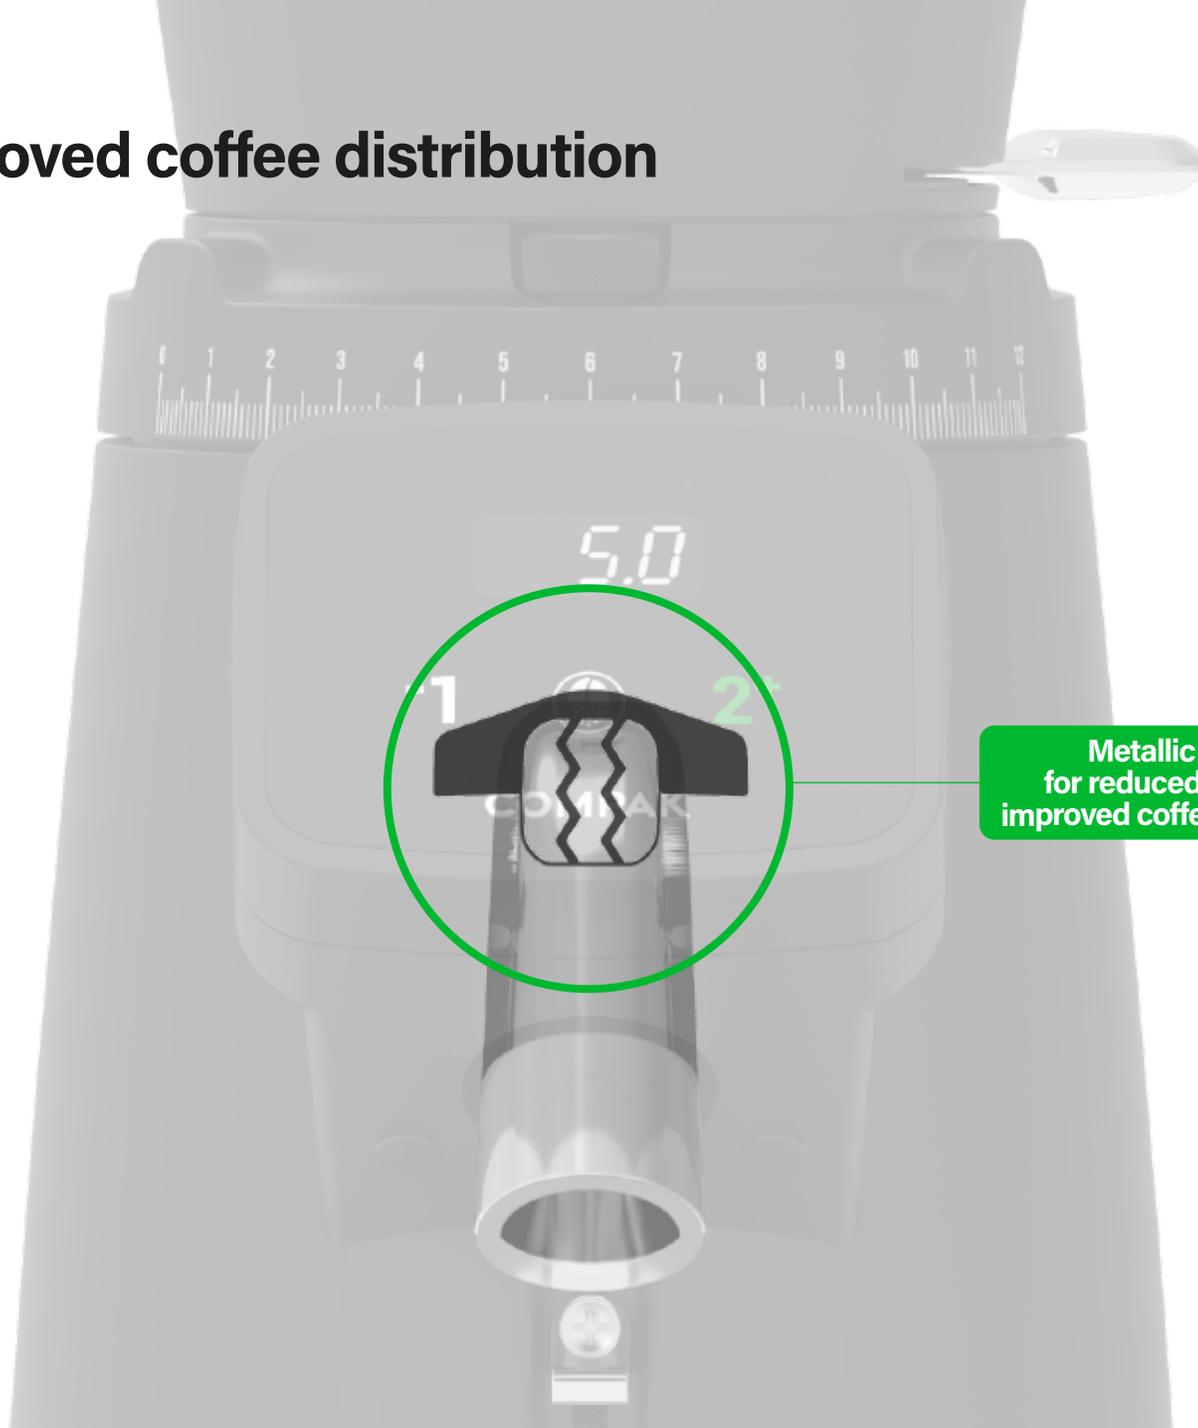

Continuous micrometric grinding adjustment

Easy grinding
adjustment

Minimal static, improved coffee distribution

**Metallic curtain
for reduced static and
improved coffee distribution**

Burrs features

Made of **high-durability tempered steel (100Cr6)**

Food-grade material

Enhance the durability of standard steel burrs

Reduction in decibels during grinding thanks to the optimization of the burrs' geometry

Made by

barra
SENSORY TECH

Electrical Characteristics

Hidden power cable

The connection with the power cable is hidden at the bottom, reducing the required distance to the power outlet, avoiding tangles, and preventing potential cable damage.

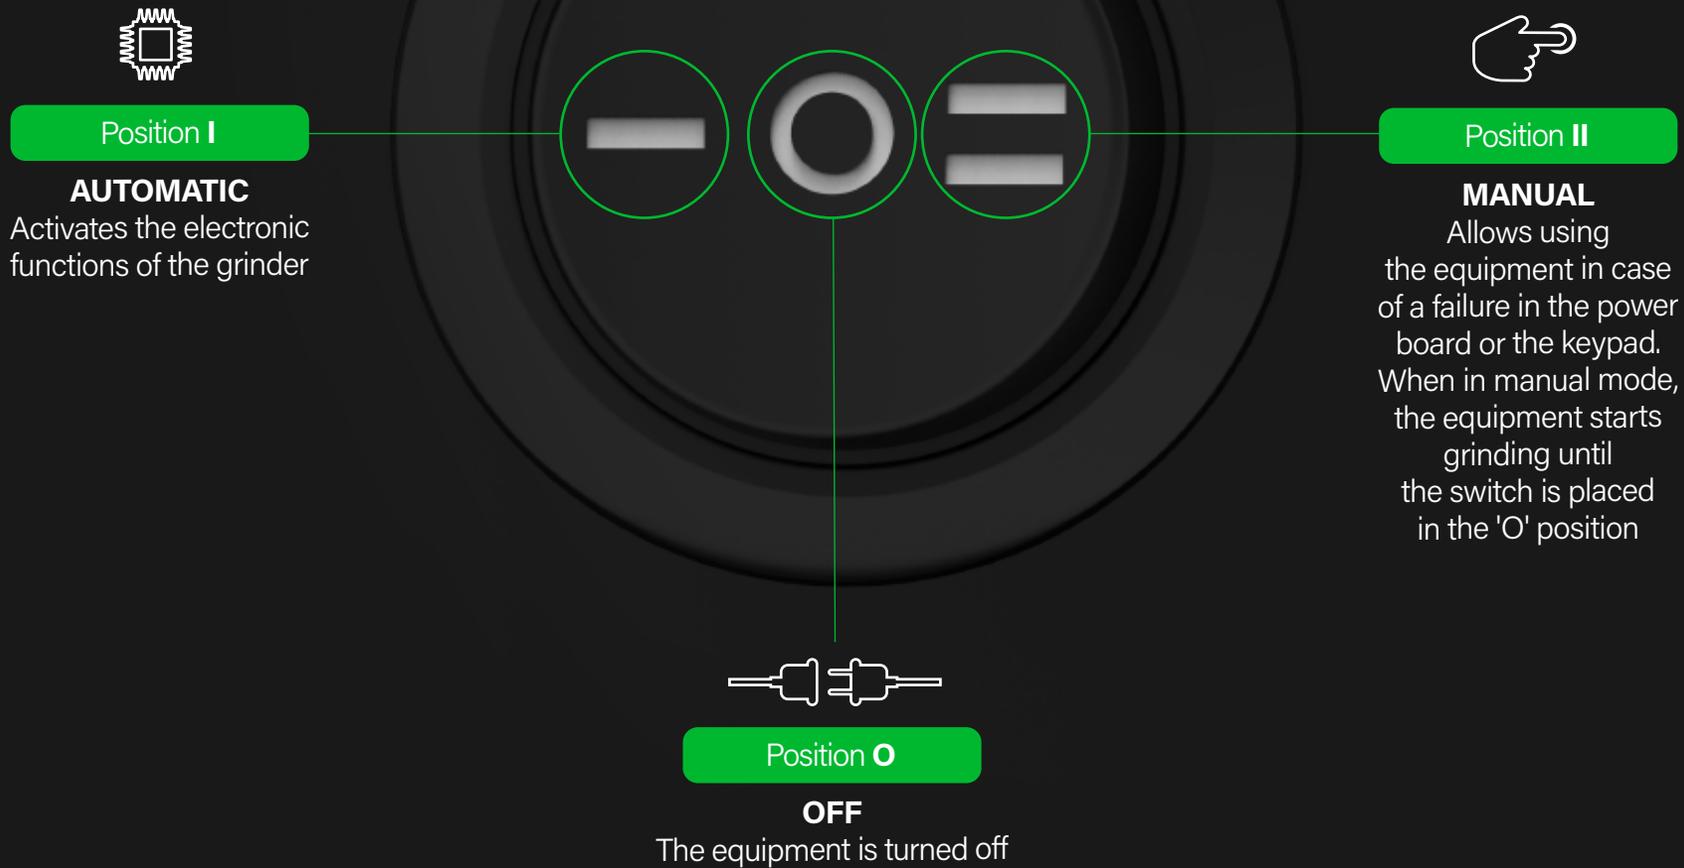

Bottom view of the grinder

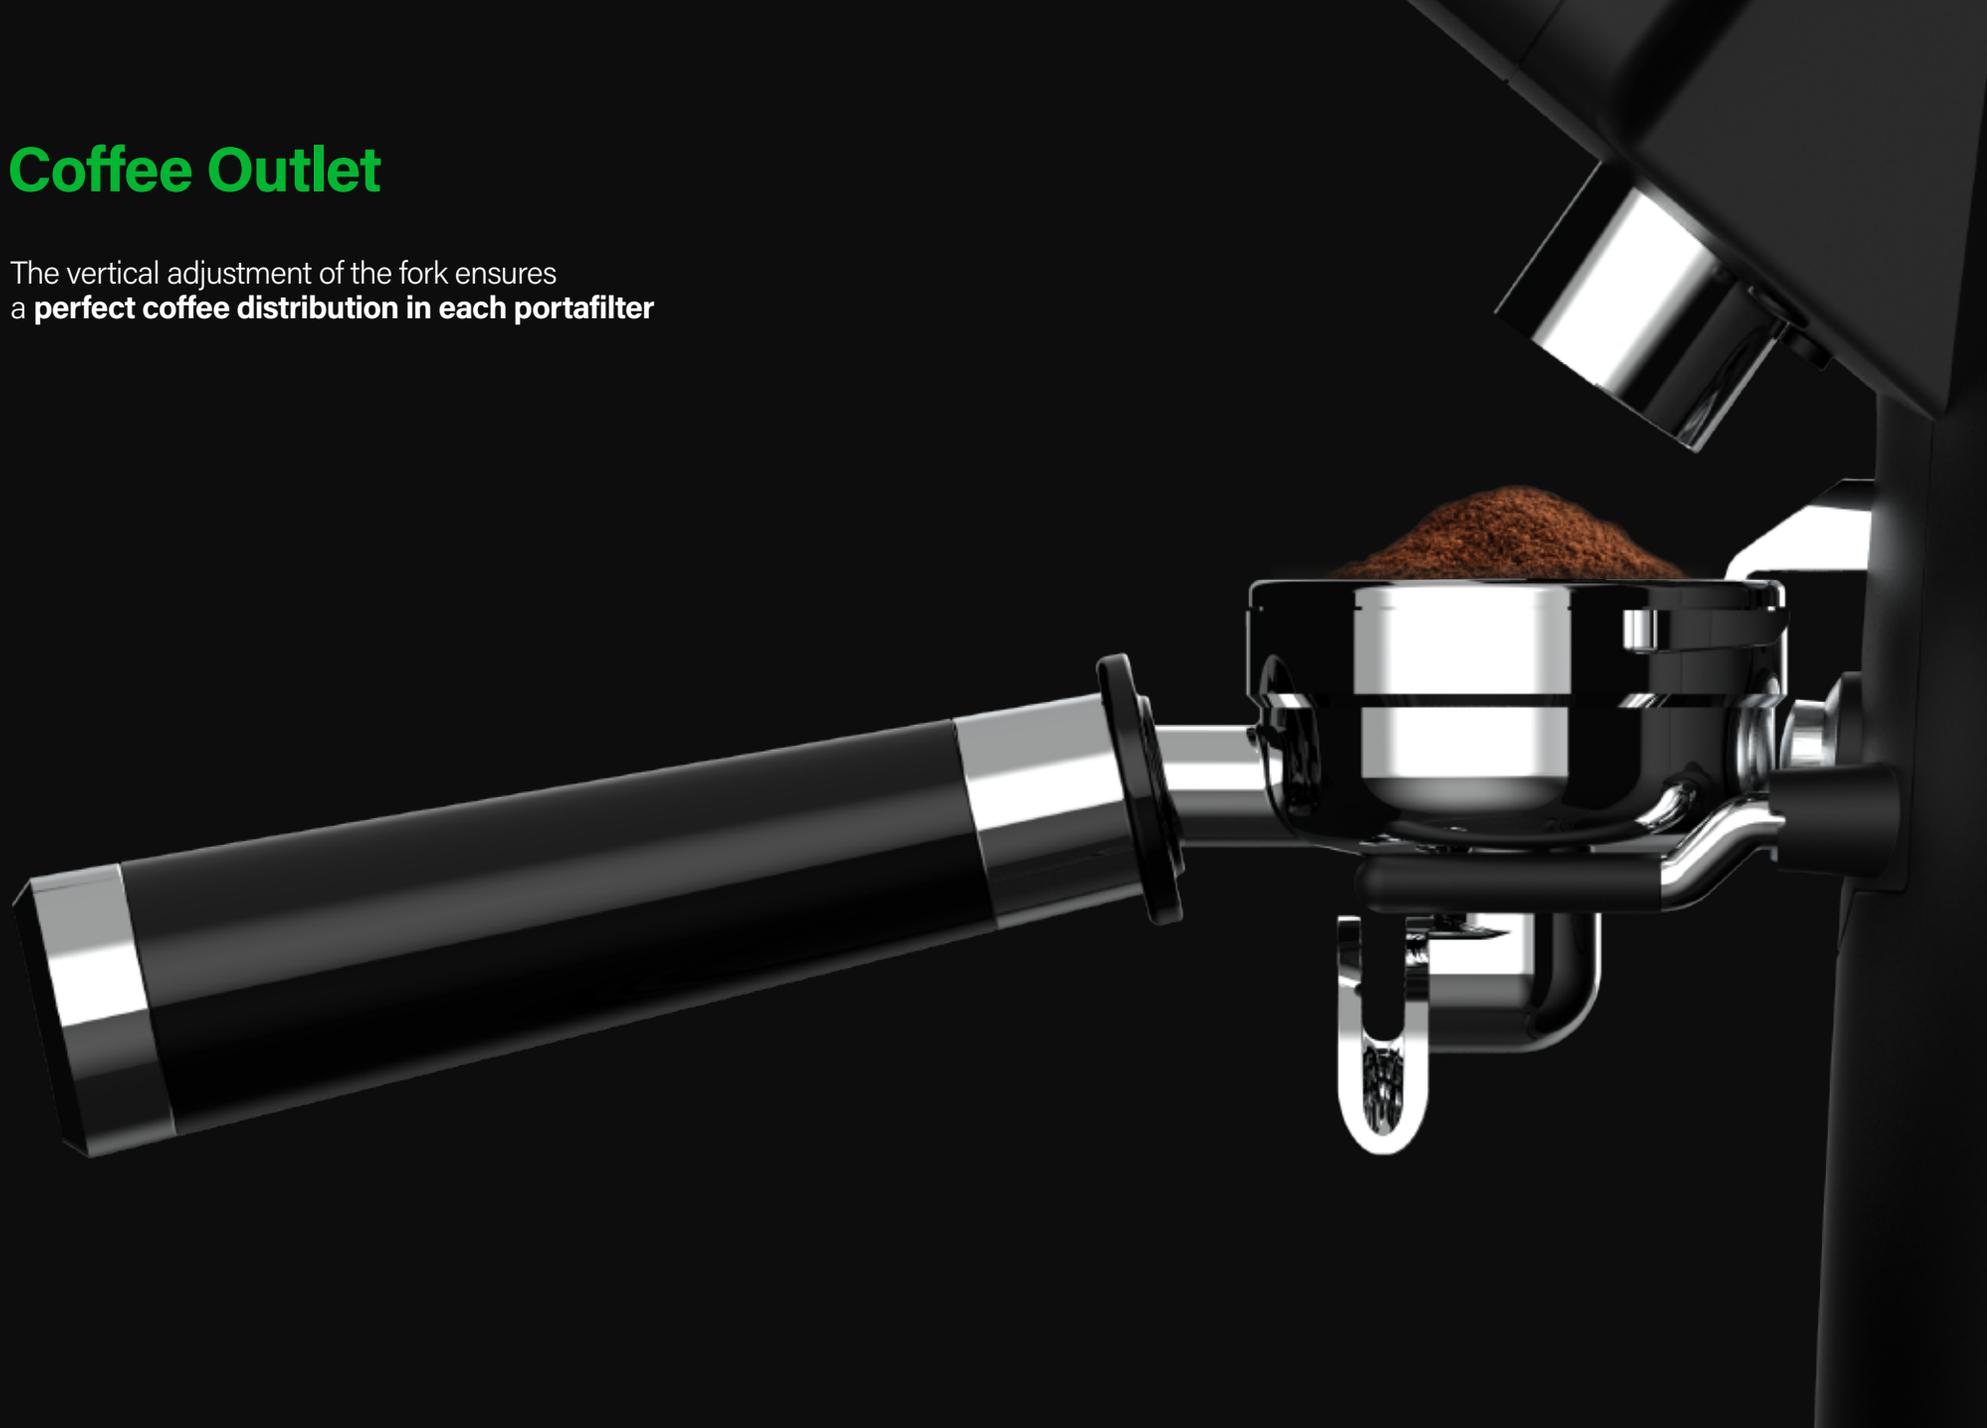

The **power cable** runs underneath the grinder to the power outlet

Main switch with three positions

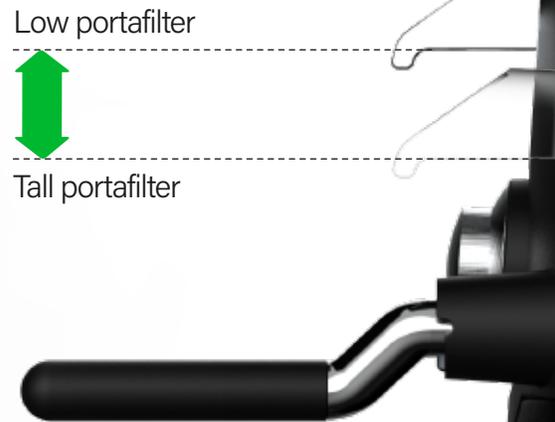

Coffee Outlet

The vertical adjustment of the fork ensures a **perfect coffee distribution in each portafilter**

Optimal ground coffee distribution

The portafilter holding clip can be vertically adjusted to fit **all portafilters on the market** ensuring an **optimal coffee distribution** in the portafilter with consistent dosing every time

Essential fork

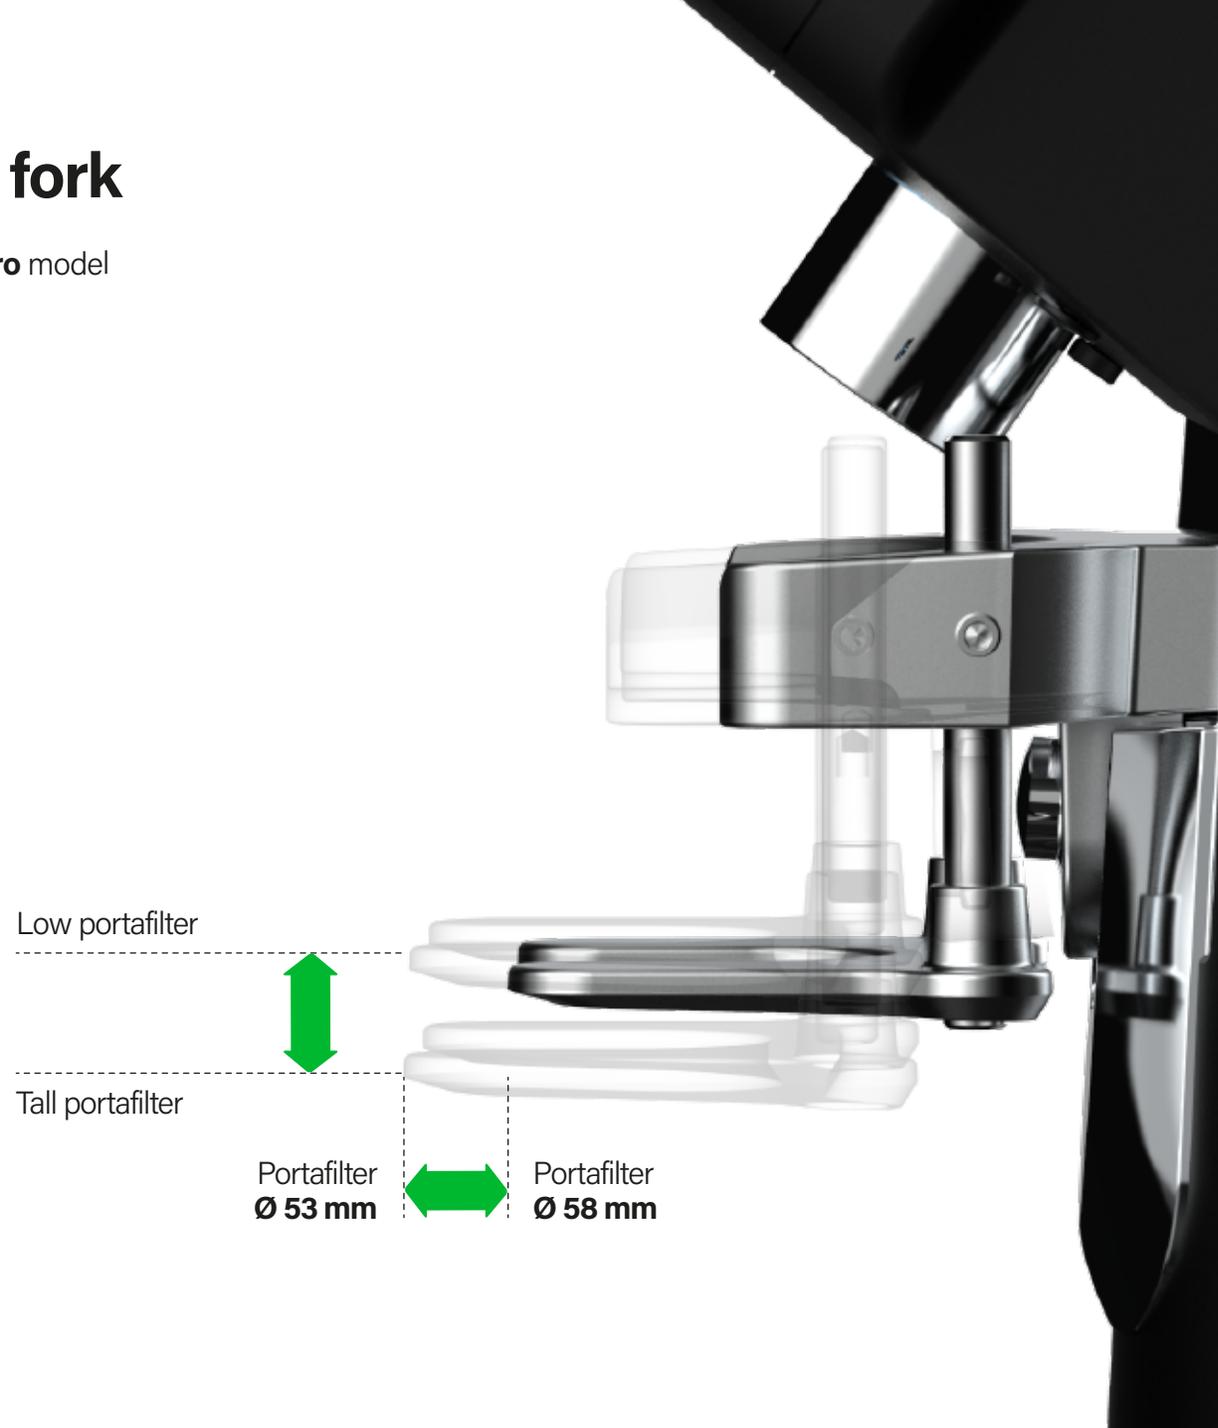

Optional in the **i3 Pro** model

Low portafilter

Tall portafilter

Portafilter
Ø 53 mm

Portafilter
Ø 58 mm

Removable coffee tray

Optionally, models with the removable coffee tray can be chosen, which can be detached from the grinder's body, allowing for more space at the bar

**Hoppers, features
and technical specifications**

Compatible hoppers

Customizable hoppers

Hopper 700
(standard)
700 g

Hopper 1250
1.250 g

Hopper 400
400 g

**Customizable hopper with
two sheets 119 x 163 mm**
1.800 g

**Vinyl customizable
hopper**
1.800 g

i3 Pro

i3 Pro features

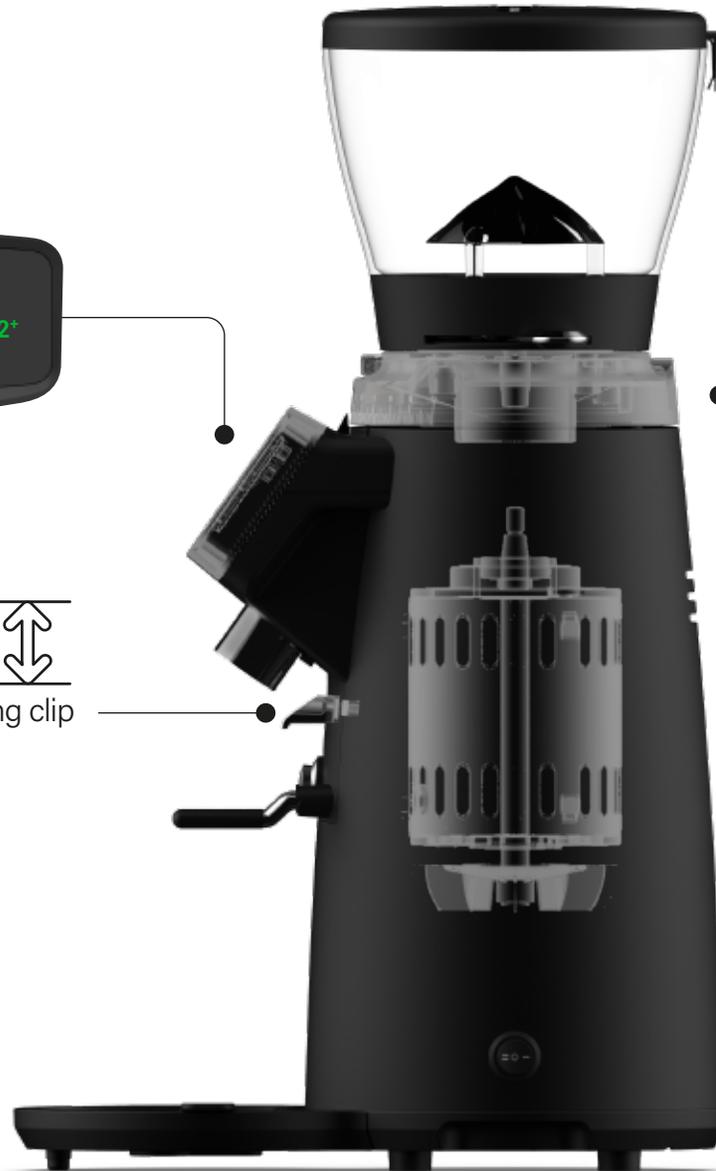

i3 Pro

Capacitive keypad with LCD display.
Independent pre-programmed selection for one, two doses, or continuous coffee

Height-adjustable portafilter holding clip

Standard hopper 700 g.
Transparent or smoked

Direct access to the grinding chamber for cleaning or changing burrs without losing the adjustment. Micrometric **Parallel System** regulation

Powerful 550W motor with fan at **1.380 rpm**

LCD display

Capacitive keypad with LCD display.
Independent pre-programmed selection
for one, two doses, or continuous coffee

i3 Pro

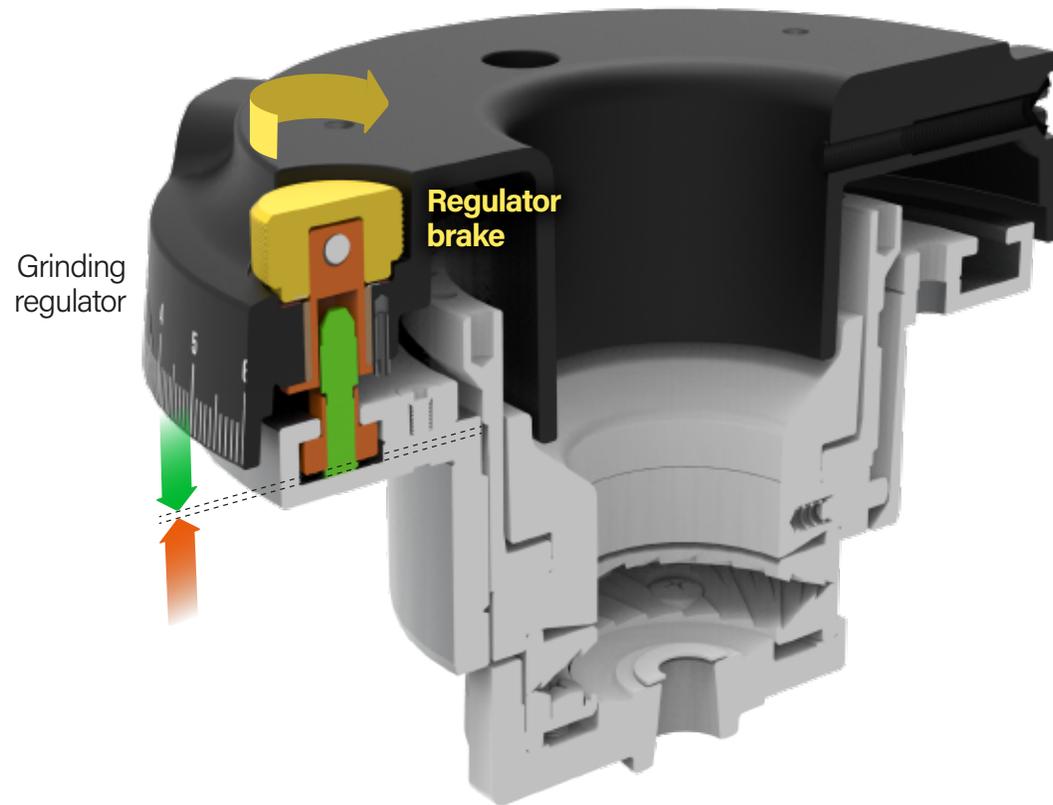

* Once the time configuration mode is on

Parallel System

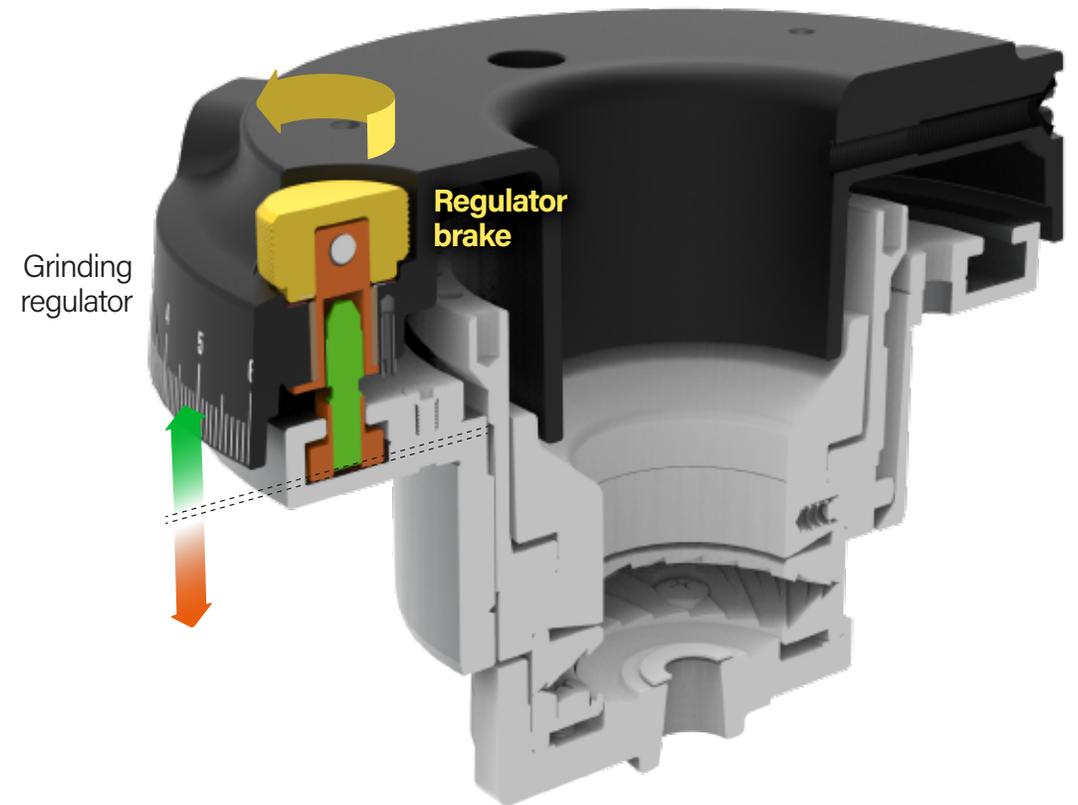

i3 Pro

Locking or unlocking the grinding regulator does not alter the parallelism between the burrs

Locking the regulator

Unlocking the regulator
